Sandman

Machinery for Agriculture and Countryside Care

The Fleming Arena Conditioner is ideal for most arena levelling – Sand, Rubber, Mixed mediums etc

- The machine is fitted on to the three point linkage and drawn on pneumatic wheels with the depth of the levelling bar set by the top link on the tractor.
- The spring steel tines have their own independent depth control so that no damage can be done to the underlying membrane.

- At 2m wide the Sandman is a quick and easy way to level the menage controlling the depth and firmness of the paddock.
- Requiring 20+ horse power the arena conditioner will loosen and level the most crusted arenas in one pass to leave a firm level surface with an even depth of tilthe.
- Available in painted finish only.

Optional draw bar for quad
