

### Very quiet, large capacity Wet&Dry vacuum cleaners.

The Wet & Dry ATTIX 7 is perfect for users who need high capacity vacuuming and features that focus on efficiency. Our most silent vacuum, ever, with superior suction performance, stainless steel tilt or lift-out container, automatic filter cleaning, anti-static capability and more.

The 70 l container found on the ATTIX 7 allows you to work a very long time without emptying the container, and when emptying is necessary, the Tilt or Lift-Off container system is extremely convenient and time-saving.

If your vacuum cleaning tasks are 'high volume', there is sure to be a perfect match for your task in the ATTIX 7 range. Operating costs are minimised with the washable PET Fleece filter element, and the low working noise level lets the operator work when others are nearby, without disturbance.

Automatic On/Off models are the choice for operators who use the machine with electric hand tools because starting or stopping the tool starts and stops the vacuum, as well. An Airbox is available as an accessory which performs the same function when using pneumatic tools.

### PRODUCT FACTS

- Industrial specifications, robust construction, and powerful.. the definition of ATTIX 7.
- XtremeClean fully automatic filter cleaning system (on many models) takes care of filter cleaning tasks in just a few seconds without interrupting your work for a second.
- Washable PET Fleece filter for high efficiency and low maintenance costs.
- SilentPower. High performance that is seen, but not heard.
- 70 litre stainless steel container and a filter bag for the ultimate in effective filtration and working efficiency.
- Automatic pump out liquid vacuum model available as Attix 751
- 61.
