

STRIMECH X-FORM FRONT LOADER BUCKETS

X-Form Professional loader buckets are manufactured from high-strength steel and feature our unique integrated box technology, a heat treated boron 500 wear edge and corner pads, making them the ideal materials rehandling, potato or grain bucket.

- 5mm X-form steel (high strength low alloy)
- Equivalent to 8mm
- Heat-treated Boron 500 wear edge
- Including brackets
- Robot welded

Together with our unique engineering technologies, X-Form steel enables us to deliver the superior strength of a professional range, whilst offering the best value for money.
